

Course Name: Computer Graphics Fundamentals

Project Title: Assignemnt 1

Student Name: Yernur Amanturlly

Instructor: Saleshova Sabina

Date of Submission: 9.19.26

Group: IT-2508

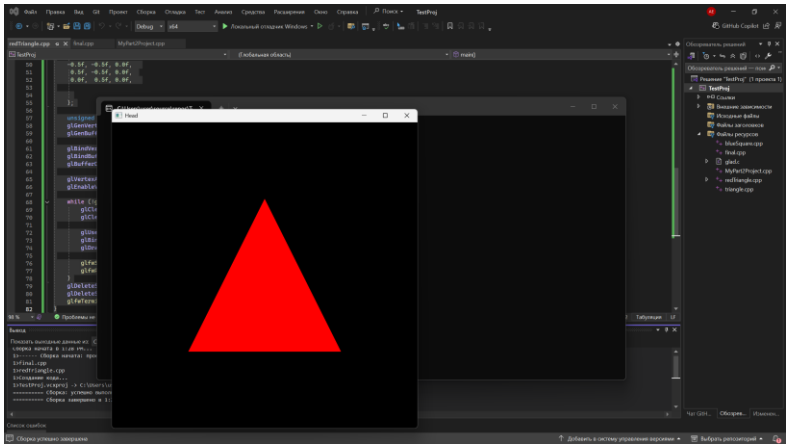

Structure:

1. Red Triangle
2. Blue Square
3. Part1.
   Final (white-black squares, gradient triangle, blue circle and ellipse)
4. Part 2

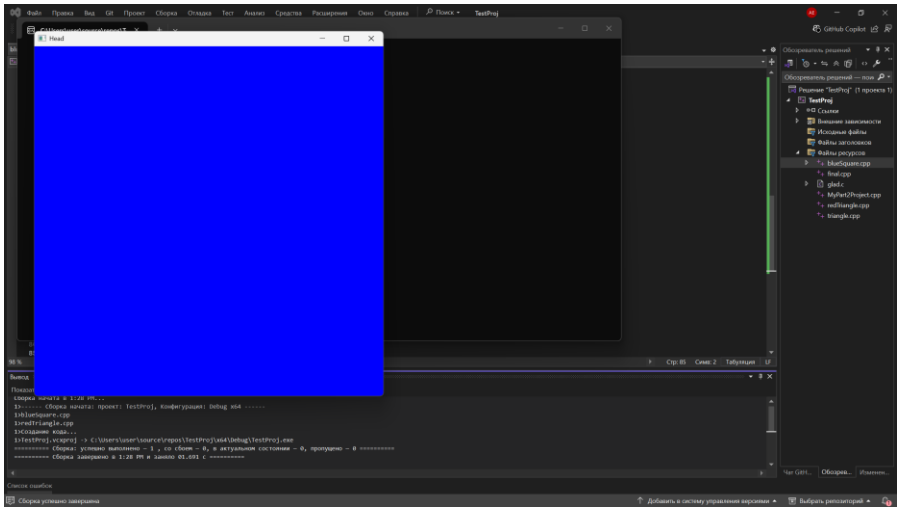

Task1.

I created red triangle and blue square in different files. I used 2 triangles to create square, 6 vertex.

Red triangle:

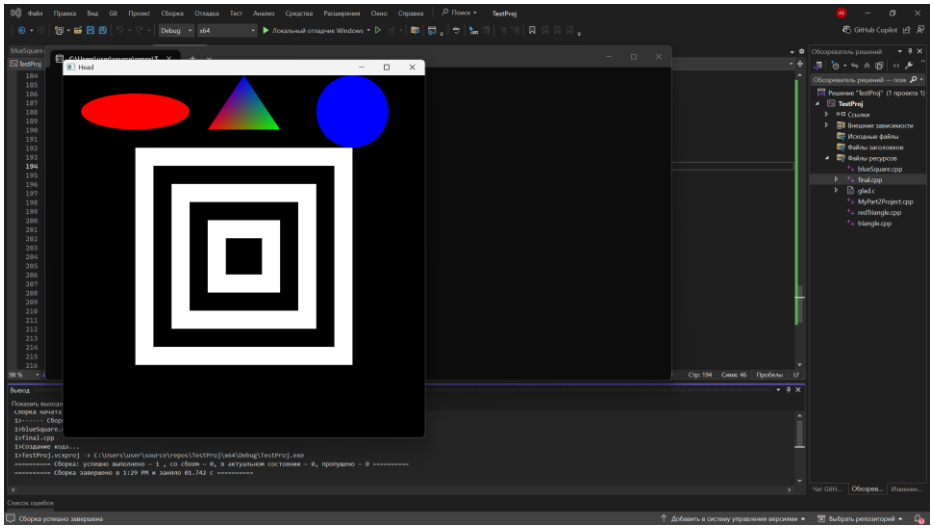

Blue Square:

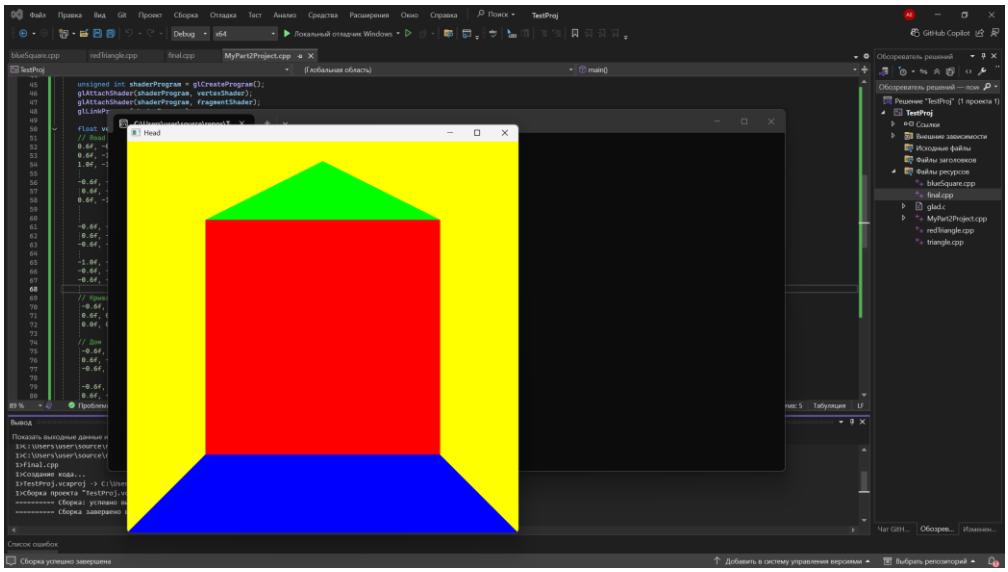

Task2.

Part1:

Part 2: I changed the color of background to yellow, then I created body of the house and the roof of the house, the blue one is road.

Conclusion: The task was easy for me, but the circle and ellipse was a little bit difficult, then I understand it like this, you just need to give many points to round it out.
